7. ARCHITECTURAL CONTROL COMMITTEE:

A. **SUBMISSION OF PLANS AND SPECIFICATIONS:** Except for original and initial construction and subsequent modification of improvements by the Declarant on any Lot which such construction is and shall be exempt from the provisions of this provision, no building, wall, fence, landscaping, berm or hedge which act as a fence or privacy inducing structure, pier, dock, ornamentation, or other structure or improvements of any nature shall be erected, placed or altered on any Lot until: 1) the construction plans and specifications and a plan showing the location of the structure and landscaping as may be required by the Architectural Committee have been approved in writing by the Architectural Committee; and 2) The owner of said Lot shall have deposited or caused to be deposited with the Association a deposit to defray the cost of repair of anything damaged by the proposed construction in the minimum amount of \$2,000.00 for home construction and \$1,000.00 for any other improvements or such higher amount as the Association may set. The deposit requirement shall not be waivable.

Each building, wall, fence or other structure or improvements of any nature, together with any ornamentation or landscaping, shall be erected, placed or altered upon the premises only in accordance with the plans and specifications and plot plan so approved.

Any change in the appearance of any building, wall, fence or other structure or improvements and any change in the appearance of the landscaping (excepting the planting of flowers and shrubs indigenous to the area), shall be deemed an alteration requiring approval.

B. PROCEDURE:

(1) The Architectural Control Committee shall make all efforts to cooperate with the owner or agent in effecting a prompt and reasonable response to any submission. Within fifteen (15)

days after receipt of all required information, the Architectural Control Committee shall submit in writing to the owner of the lot a response stating whether or not the requested improvements are approved. Unless a response is given by the Architectural Control Committee within fifteen (15) days, the plan shall be deemed approved. The Architectural Control Committee shall have the power to promulgate reasonable rules and regulations designed to carry out the provisions and intent of this paragraph. Any such rules and regulations shall be approved by the Board of Directors prior to implementation.

(2) Action of the Architectural Control Committee may be based upon any reasonable ground, including aesthetic grounds. Requirements of any governmental authority shall not be considered by the Committee. The response of the Architectural Control Committee must be:

- (a) An approval; or
- (b) An approval with conditions; or
- (c) An approval with conditions together with a request for additional information; or
- (d) A denial.

A denial is an extreme response and not to be made unless an approval with conditions can not be made. A denial prohibits or delays construction of the proposed improvements.

A request for additional information shall be deemed a determination that the information submitted was inadequate and the 30 day time period for response shall only commence upon the receipt of the requested additional information.

If an approval with conditions is granted and thereafter construction begins, the construction shall be deemed approval by the owner of the lot of the conditions imposed.

(3) The Architectural Control Committee shall make the following affirmative findings before any plans are approved:

- (a) That the improvements sought to be constructed will not have a negative economic impact on any other lot within the subdivision.
- (b) That all required specific buildings standards and other conditions contained within the Restrictive Covenants, By Laws and other subdivision documents have been met.
- (c) That the improvements are architecturally compatible with proposed or constructed improvements on other lots within the subdivision.
- (d) That the natural features of the lot have been retained to the maximum extent possible.

In addition to the above required finding, in order to deny a submission, the Architectural Control Committee must provide a specific and detailed response of why an approval with conditions was not a reasonable alternative to the denial.

C. EXCEPTIONS: The paint, coating, stain and other exterior finishing colors and

The Association may establish a fee to cover the expense of reviewing plans and related data at the time plans are submitted for review in order to compensate any consulting architects, landscape architects, urban designers or attorneys.

F. APPEAL OF COMMITTEE ACTION: Any Owner may appeal the decision of the Architectural Committee provided that all parties involved comply with the decision of the Architectural Committee until such time, if any, as the Board of Directors amends, or reverses the Architectural Committee's decision. Appeals petitions must be legibly written, state the grounds for appeal and be submitted to the Board of Directors within thirty (30) days of the decision of the Architectural Committee. The Board of Directors shall act upon the appeal by amending, reversing or confirming the decision of the Architectural Committee within fifteen (15) days of receipt of the petition.
